OTLEY NEIGHBOURHOOD PLAN – INFORMAL SITES CONSULTATION

COMMUNITY FACILITIES

Initial public consultation did not ask specifically about community facilities, but nonetheless demonstrated that facilities such as the town's schools, the currently closed civic centre and The Summercross were all issues of concern. The response to the Policy Intentions Document consultation solidly endorsed (over 70%) the intention to include a policy to safeguard community buildings and facilities.

Core Strategy Policy P9 states that where proposals for development would result in the loss of an existing facility or service, satisfactory alternative provision should be made elsewhere within the community if a sufficient level of need is identified. This is interpreted as meaning both extant and closed facilities/services as long the existing use has not been superseded by planning permission for an alternative use.

Neighbourhood Plan Policy CF1 will add to Policy P9 by specifying the facilities to which policy will apply. The Town Council has identified a list of facilities which it considers should be retained within the town and the loss of which should be guarded against. Policy also goes on to set out the particular local circumstances which should govern loss or alternative provision.

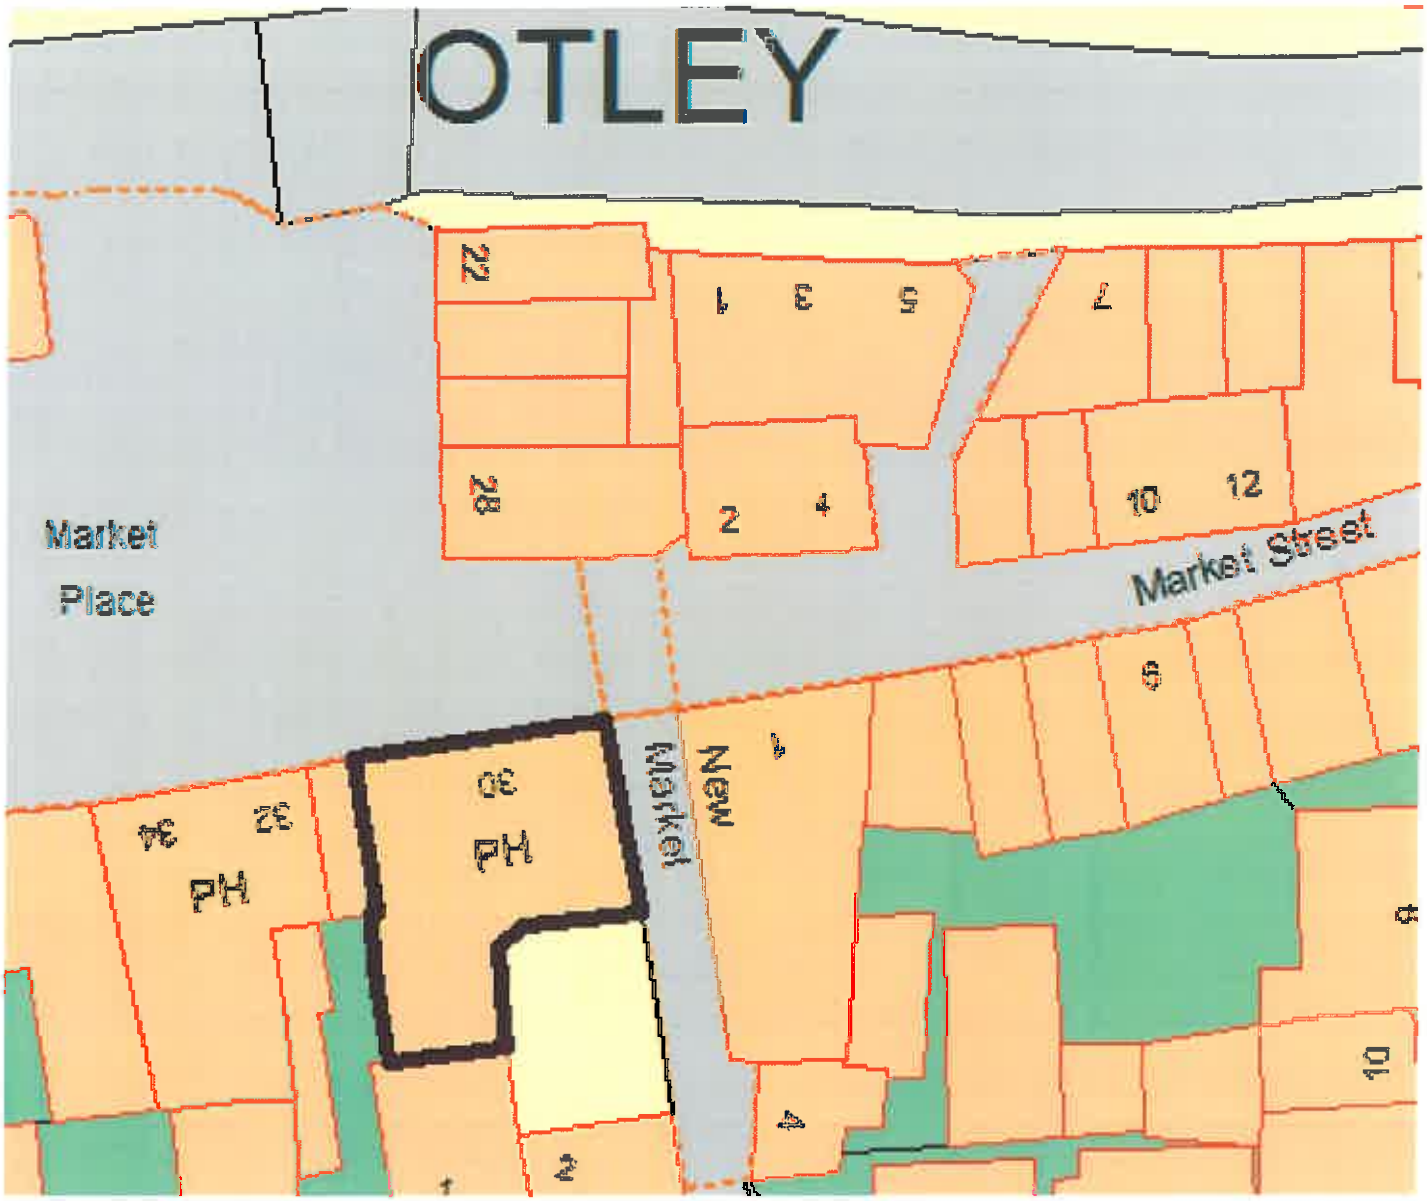

POLICY CF1: PROTECTION AND ENHANCEMENT OF COMMUNITY FACILITIES

The loss to development of any of the following community facilities, as shown on The Neighbourhood Plan Map, will require alternative equivalent or superior provision elsewhere within the Neighbourhood Area, wherever a sufficient level of continuing community need is identified.

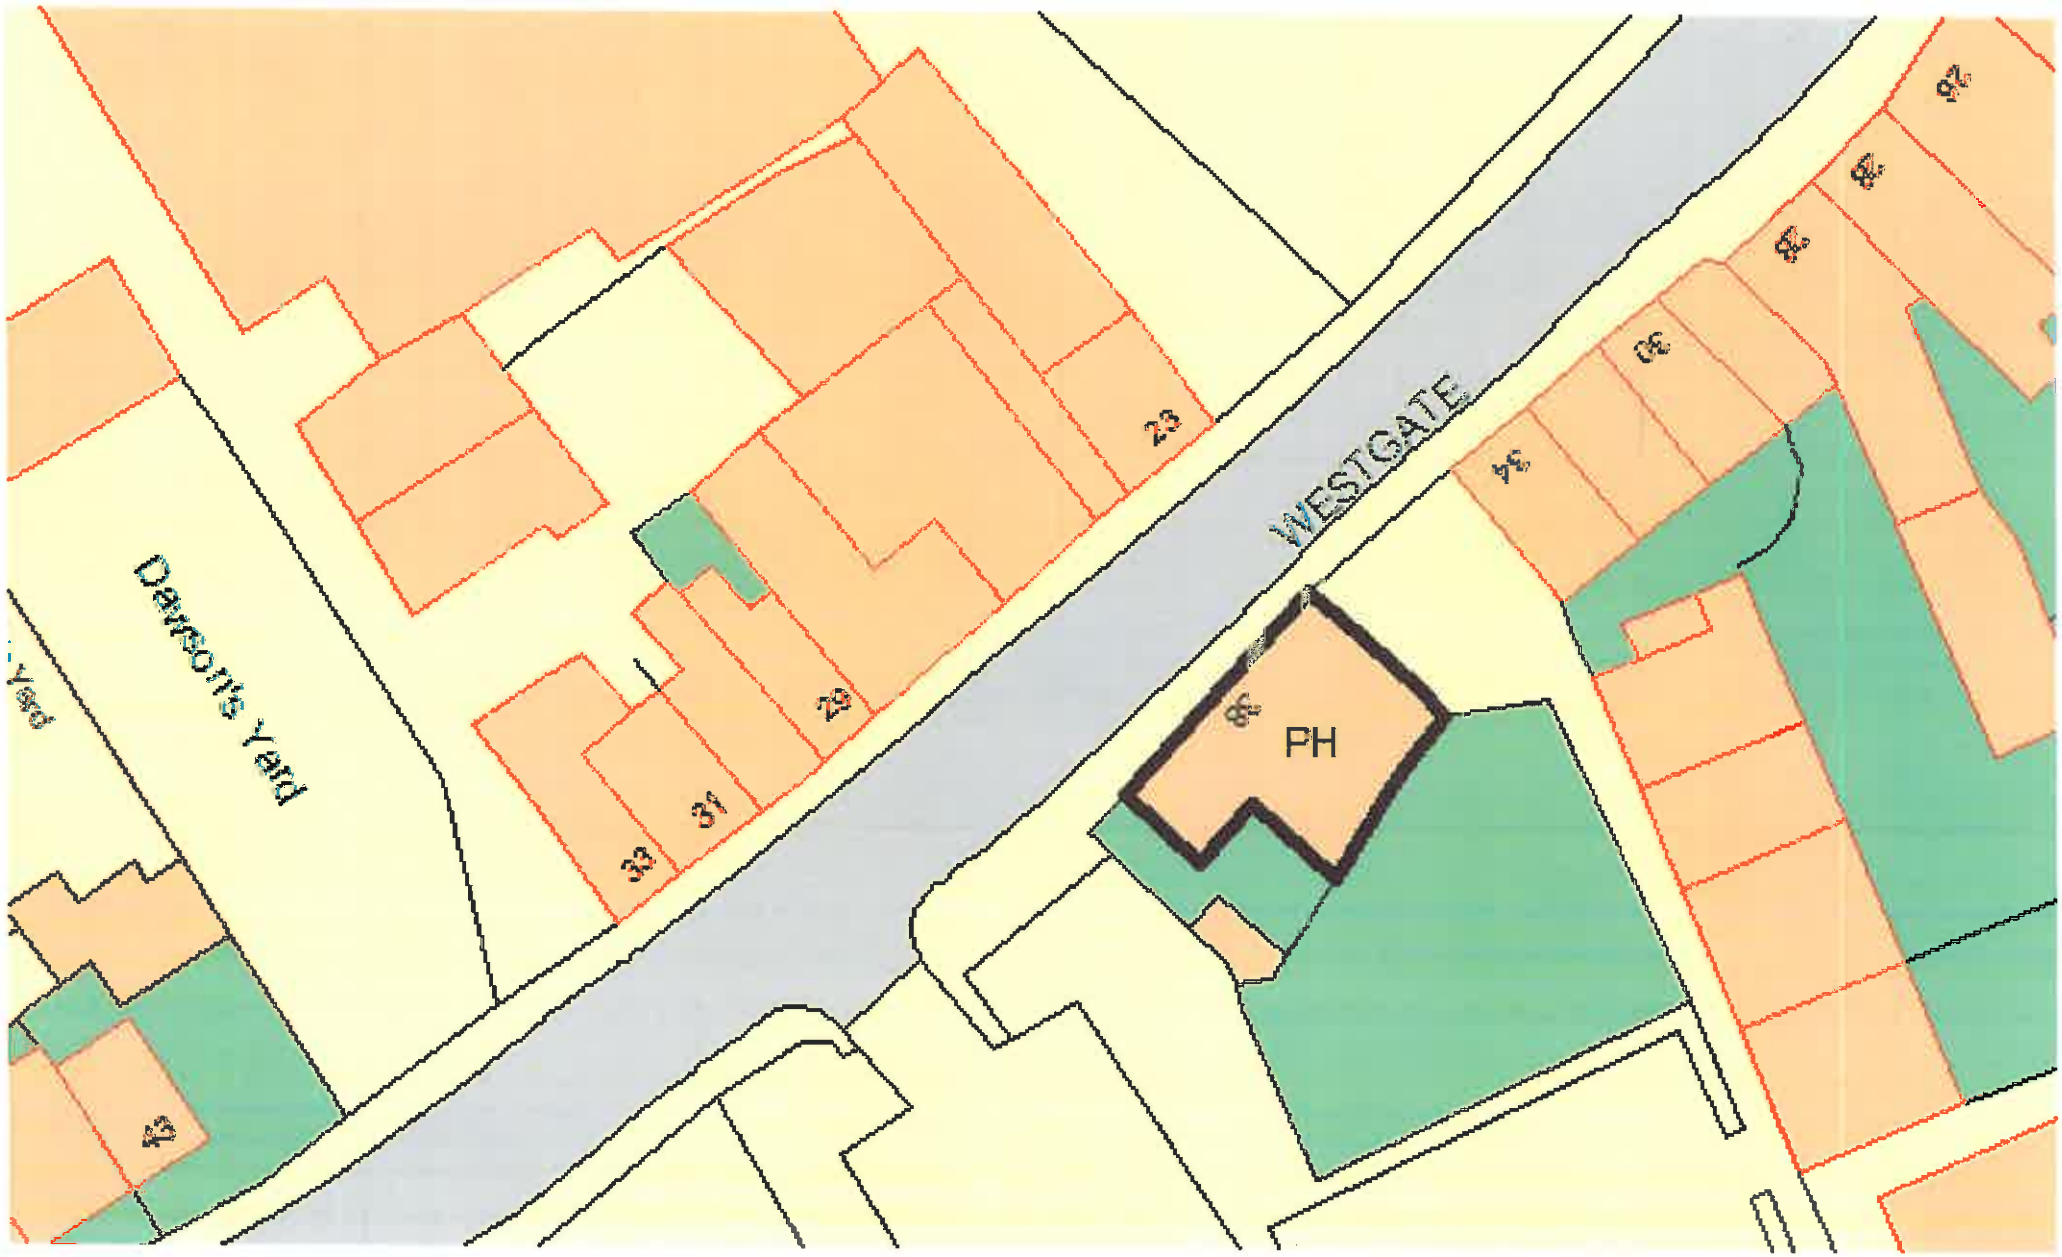

- Civic and community;
- Educational;
- Health;
- Youth;
- Older Peoples;
- Religious;
- Social and entertainment;
- Sports and leisure.

Development which would improve or add to the facilities listed above, for the benefit of the Otley community, will be encouraged and supported.
